

THINGS TO CONSIDER WHEN TAKING ON A CAT.

Whilst having a cat in a home can be exciting there are things to consider when thinking about taking on a cat.

- How busy is the road outside your house? For the safety of the cat we can't rehome to a house on a known busy road and we will look at your location to see if it is suitable for the cat with regard to where it has lived before and the level of traffic it is used to.
- Can you afford the cat? Take into consideration food, toys, equipment and vet bills. Will you take out insurance? We issue 4 weeks' free insurance with Pet Plan on every rehoming.
- If you have children, will they be calm around the cat and understand they sometime need time and space to settle.
- Do you have any furniture that is special as there is a chance cats may scratch.

ESSENTIAL SHOPPING LIST.

There are a few items that we would recommend you purchase before you take your cat home. Once staff have booked a day for you to come and collect your cat, we would suggest you look into getting (*available at shelter, new or second hand, please check with staff what we have in stock)
